**Goals**

To protect threatened and endangered anadromous fish populations and pumping requirements for adjacent agriculture, managed wetlands (federal, state and private), and City of Chico wastewater facility without a significant effect upon river meanders.

**Final Recommendations**

**Steering Committee**

**Fisheries/Fish Screen Criteria**

**Preliminary Alternatives Economic & Engineering Feasibility**

**Pumping Requirements**

**Final Economic Engineering Feasibility**

**Non-Goal Alternative**

**River Meander Sediment Deposition**

**Preferred Alternative**
