

# MISSISSIPPI

LEGACY GREENWING PROJECT

## PROJECT DETAILS

<b>Title:</b>	Legacy Greenwing Project at Indianola Wildlife Management Area
<b>Location:</b>	Indianola WMA – Approximately 10 miles north of Indianola, MS
<b>Purpose:</b>	Restoration of abandoned catfish ponds to moist-soil impoundments managed for waterfowl habitat and hunting opportunity.
<b>Logistics:</b>	Construction of levees and installation of water control structures, new groundwater wells and associated underground piping to provide reliable management infrastructure.
<b>Ecological Benefits:</b>	Restoration of nearly 700 acres of wetland habitat in the Mississippi Alluvial Valley will increase foraging habitat for waterfowl and other wetland-dependent migratory birds.
<b>Partners:</b>	North American Wetlands Conservation Council, Wetlands America Trust, DU, MDWFP, Audubon Society, the Walker Foundation and Cypress Brake Tree Farms
<b>Total Project Cost:</b>	\$2.1 million — Legacy Greenwing Goal - 100 (\$20,000)

DU's restoration work at Indianola WMA will be dedicated in honor of Dr. Ronal Roberson, a devoted DU volunteer who's passion is youth and education.

A dedication ceremony will be held when the project is completed. All supporting Legacy Greenwings will be recognized with their name on a cairn at the project site.

To support this effort, you can sign up your Legacy Greenwing by completing this form and sending a check: Payable to Ducks Unlimited, Mail to: Attn. MSDU Youth and Education Chairman Lawayne Smith, 350 Todd Road, Sumrall, MS 39482  
For questions: Please contact Lawayne Smith at (601) 310-7829 or lawayne@sd-w.com

Name: \_\_\_\_\_ Birthdate (month/year): \_\_\_\_\_

Address: \_\_\_\_\_

The LEGACY GREENWING program is a bridge between Ducks Unlimited's habitat conservation and youth programs.

It is open to youths up to age 17 for a one-time contribution of \$200.
